

Official White Paper - AiCop Token (ACP)

I. Introduction

AiCop (Artificial Intelligence Cooperative Protocol) is a digital investment ecosystem backed by real-world infrastructure, connecting smart capital with productive projects in Latin America. The **ACP** token, deployed on the Binance Smart Chain, enables global investors to participate in physical projects through blockchain technology and smart contracts.

II. Mission and Vision

Mission: To democratize access to infrastructure investments through blockchain technology, ensuring transparency, traceability, and capital protection.

Vision: To become the most trusted bridge between the crypto world and the real economy in Latin America and beyond, promoting social transformation and sustainable development.

III. Identified Problem

Thousands of high-potential real estate and infrastructure projects fail to obtain financing due to bureaucracy, corruption, or lack of trust. At the same time, millions of individuals seek to invest in solid assets but lack access or technical knowledge.

IV. The Solution: AiCop Token (ACP)

AiCop Token addresses this gap by enabling:

- Funding of real-world projects with blockchain traceability.
 - Validation of projects with business backing.
 - Creation of secure opportunities for small and medium investors.
-

V. Allied Companies

1. **MG3 Construcciones S.A.S** – Civil works and recreational centers (project: Tourist center \$350,000 USD).
2. **EO Techos S.A.S** – Specialized construction company in metal structures and corporate buildings (value: \$2,500,000 USD).
3. **LARCOIN S.A.S** – Tokenization and decentralized financing.

4. **FILLMORETEC S.A.S** – Technology applied to smart contracts.
 5. **CURCAS.A.S** – Sustainable housing (48 homes in Rozo, total value: \$4,800,000 USD).
 6. **GENESIS S.A.S E.S.P** – Renewable energy and public services.
-

VI. Tokenomics

- **Token Name:** AiCop
- **Symbol:** ACP
- **Network:** Binance Smart Chain (BEP-20)
- **Total Supply:** 1,000,000,000 ACP
- **Initial Price:** \$0.002 USD per ACP
- **Decimals:** 18
- **Distribution:**
 - 70% allocated to liquidity pool (locked for 12 months)
 - 30% strategic reserve for operations, staking, and sustainability

♦ *Note: Token supply distribution is independent of the capital raised distribution. 70% of the token supply will be locked in liquidity to sustain token price, while the funds raised will be distributed as outlined in Section VIII.*

👉 **Are you an investor, allied entity, or enthusiast of real-world-backed crypto?** This is your moment to act. AiCop offers a unique opportunity to participate early in a solid tokenized economy, with secured liquidity and a long-term vision. Your contribution today can multiply exponentially tomorrow.

- **Control Mechanisms:**
 - **Anti-whale policy:** Originally planned as 2% max per wallet, 1% per transaction, **this feature has not yet been implemented at the contract level**. It will be included in a future token migration for enhanced robustness.
 - **burn** function for controlled deflation
 - Contract already migrated to **multisig (Gnosis Safe)** for enhanced security
 - Ongoing coordination with partner companies for implementing a **decentralized governance system** with validated participation
-

VII. Contract Security

- Deployed and verified with **Solidity 0.8.24 (Cancun)**
- Based on audited **OpenZeppelin** libraries
- Core functions: **transfer**, **approve**, **burn**
- Protection against common errors via **require()** and strict validations
- Community auditing and transparency via GitHub:

VIII. Allocation of Raised Funds

- **60% – Direct investment in real estate and infrastructure projects:** Prioritizing ongoing projects like the 48 sustainable homes in Rozo, Valle del Cauca, Colombia, the recreational center, and residential buildings.
- **15% – Research, technology, and DeFi expansion:** Includes proprietary platform development, cross-chain integration, and tools for mass tokenization.
- **10% – Administration, legal and operational security:** Coverage of notarial, tax, legal expenses, and corporate operations.
- **15% – Strategic buyback and reserve fund:** Aimed to stabilize token price in the open market, support staking, and strengthen AiCop's financial health. Managed from a public wallet with auditable movements and periodic reports to ensure trust and transparency.

👉 Are you an institutional investor, private fund, or part of a business consortium?

This is the perfect time to join as an impact partner. AiCop is seeking allies who share its transformative vision. Your investment not only supports blockchain technology but becomes bricks, roofs, and tangible progress. Contact us and receive a personalized proposal for strategic participation.

The raised capital is transferred to a verified multisig account, with distributed control to avoid vulnerabilities. Implementation of anti-whale policies and a decentralized governance system is underway.

IX. Roadmap

- **Phase 1:** Contract development and verification
 - **Phase 2:** Visual identity, GitHub, white paper, and official landing page
 - **Phase 3:** Pre-sale, PancakeSwap listing, multisig migration
 - **Phase 4:** Staking platform, expansion to other networks (cross-chain), institutional alliances
-

X. Legal and Compliance

AiCop is backed by registered companies and legal operations in Colombia. It is in the process of tax validation to operate in accordance with international digital asset regulations.

XI. Conclusion

AiCop is not just a token. It is a financing strategy that combines the best of cryptocurrencies with real, tangible, and auditable assets. With a tokenized economy backed by million-dollar

projects, transparent policies, and a secure contract, AiCop positions itself as the Latin American benchmark in blockchain investment.
